

Administration of Medication

Governance Council Policy 2014.4

The Golden Eagle Charter School ("Charter School") Governing Board hereby adopts a policy governing the administration of medication at school sites. Charter School staff is responsible for the administration of medication to students attending school during regular school hours. It is imperative that practices followed in the administration of medication be carefully delineated to ensure the safety of our students and the legal protection of our employees. Any pupil who is required to take, during the regular school day, medication prescribed for him or her by a physician, other qualified medical professional, or ordered for him or her by a physician assistant practicing in compliance with Chapter 7/7 (commencing with Section 3500) of Division 2 of the Business and Professions Code, may be assisted by the school nurse or other designated school personnel or may carry and self-administer prescription auto-injectable epinephrine if the Charter School receives the appropriate written statements as follows:

1. In order for a pupil to carry and self-administer prescription auto-injectable epinephrine, Charter School shall obtain both a written statement from the physician, other qualified medical professional, or physician assistant detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and confirming that the pupil is able to self-administer auto-injectable epinephrine, and a written statement from the parent, foster parent, or guardian of the pupil consenting to the self-administration, providing a release for the school nurse or designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing Charter School and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication.
2. In order for a pupil to be assisted by a school nurse or designated school personnel, Charter School shall obtain both a written statement from the physician, other qualified medical professional, or physician assistant detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken and a written statement from the parent, foster parent, or guardian of the pupil indicating the desire that Charter School assist the pupil in the matters set forth in the statement of the physician, other qualified medical professional, or physician assistant.

Guidelines:

- The primary responsibility for the administration of medication rests with the parent/guardian, student and medical professional.
- Medication shall be administered during school hours only if determined by a physician to be necessary.
- Designated staff shall keep records of medication administered at the school.

- All medication, with the exception of medication that has been physician, or other qualified medical professional, approved for self-administration, will be kept in a secure and appropriate storage location and administered per physician's, or other qualified medical professional's, instructions by appropriately designated staff.
- Designated staff shall return all surplus medication to the parent/guardian upon completion of the regimen or prior to summer holidays.
- Designated staff shall establish emergency procedures for specific medical conditions that require an immediate response (i.e. allergies, asthma, and diabetes).
- The written statements specified in this policy shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.
- A pupil may be subject to disciplinary action if that pupil uses medication in a manner other than as prescribed.
- Any pupil requiring insulin shots must establish a plan for administration of insulin shots with the Executive Director in consultation with the parent/guardian and pupil's medical professional.
