

9th Grade High School Packet

Did you hear About...?

- GECS graduation Requirements? I have seen my units and my transcripts and know what I need to finish to graduate.
- Military requirement for traditional school career? I understand that some branches of the military want their recruits to have attended a traditional high school.
- High School Project and what that entails? I know that I will need to complete a project before I graduate that will entail several elements, some of which include a physical Project, a research Paper, a Poster a Presentation of my project and process.
- College versus vocational track for studies? I understand that there are 2 tracks at GECS – a college prep track and a vocational track.
- CSU/UC Entrance Requirements? I have seen the CSU/UC entrance requirements and I know that I have to take certain courses to gain entrance to these schools.
- Small group Classes and tutors? GECS offers some classes on site an one on one tutoring for students who need help in certain subjects. I have seen a schedule of the class offerings and vendors available to me.
- Concurrent Community College Enrollment? You can take classes at community college while you are a student at GECS. We will pay for books, but not tuition. You must meet their criteria for placement and credit limits. You must take the majority of your credits at GECS.
- Our School Newsletter? We send out a school newsletter every other month with notices about dances, field trips, meetings, groups that are forming classes, etc...
- Our Website? We have a great school website with links that can help you plan for college, do career or interest surveys, and more!

Thanks for enrolling at GECS!
